

UTAH OFFICE OF
ENERGY DEVELOPMENT

PRODUCTION TAX CREDIT

- ✓ The Production Tax Credit (PTC) is available for large scale solar PV, wind, biomass, and geothermal electricity generating projects over 660 kilowatts in nameplate capacity size.
- ✓ The PTC is calculated as \$.0035 (.35¢) per kilowatt hour of electricity produced during the project's first 48 months of operation after the Commercial Operation Date.
- ✓ Only solar PV projects have the option to choose between the Commercial RESTC (10% up to \$50,000) or the PTC if the nameplate capacity size falls between 660 kW and 2 MW.
